

ASSURANCE OF COMPLIANCE WITH FOOD SAFETY STANDARDS

27 November 2024

Dear Valued Customer,

Following the National address by President Cyril Ramaphosa on the deaths of children due to food-borne illnesses, we want to take a moment to assure you that our company remains fully compliant with all South African pest control standards. The Specialists Franchise Group and all of its Branches spread across Southern Africa are committed to providing the highest level of pest control services while ensuring the safety of our customers, their properties and the environment.

Our team of registered technicians undergo regular training to ensure they are up-to-date on the latest techniques, products, regulatory and safety requirements. We use only approved, registered and environmentally responsible products. We can further assure you that none of the products we use contain the implicated toxic ingredients namely, Chlorpyrifos and Cartap Hydrochloride as active ingredients.

In addition, our suppliers are also fully committed to this initiative and have assured us in writing that none of their products contain the above-mentioned toxic ingredients.

At The Specialists Franchise Group, we value the trust you have placed in us, and we are dedicated to continuing to provide you with exceptional service and peace of mind, as we have done for the past 47 years. If you have any questions or concerns about our pest control services or regulatory compliance, please do not hesitate to contact us.

Regards,

E. F. SNYMAN

Operations Director – The Specialists Franchise Group
